

GSEB CLASS 10 SOCIAL SCIENCE

Chapter 15: Economic Development - Section B

SECTION B

Q1. Write the benefits of the socialist system.

- **Social Needs:** Production is planned according to the **needs of society**, reducing unnecessary production.
- **Resource Use:** Planned production helps in the **proper use of resources** and reduces wastage.
- **Economic Equality:** It aims to reduce **income and property inequalities** among people.
- **Consumer Protection:** The system provides greater **protection to consumers** from exploitation.

Q2. Explain: Economic development is taking place in India.

- **National Income:** After independence, India's national income has increased.
- **Per Capita Income:** There has also been an increase in **per capita income**.
- **Facilities:** Improvements have taken place in food, drinking water, education, transport, communication, housing and sanitation.
- **Standard of Living:** These improvements indicate a rise in the **standard of living** and show that economic development is taking place.

Q3. Write the limitations of the socialist system.

- **Lack of Motivation:** State ownership of the means of production may reduce **individual motivation** to increase production.
- **Lack of Competition:** Less competition can slow down **innovation, research and quality improvement**.
- **Economic Freedom:** There may be less **individual economic freedom** in production and business decisions.
- **Bureaucracy:** Excessive state control can increase **bureaucratic control and delays**.

Q4. Write a note on the primary sector.

- **Meaning:** The **primary sector** includes economic activities directly dependent on natural resources.
- **Main Activities:** It includes **agriculture, animal husbandry, fishing, poultry farming, forestry and mining.**
- **Employment:** It provides **employment to a large number of people**, especially in developing economies.
- **Importance:** It remains an important part of the **Indian economy**, though its relative share decreases with development.

Q5. What is mixed economy? State its limitations.

- **Meaning:** A **mixed economy** is an economic system in which the **public and private sectors coexist** and work together.
- **Combination:** It combines useful features of the **market system and socialist system.**
- **Limitation 1:** It may face **economic instability and lack of coordination** between the two sectors.
- **Limitation 2:** It may also face **policy inconsistency and slower economic progress** in some situations.

Q6. Explain: It is necessary to determine the order or priority of wants.

- **Unlimited Wants:** Human wants are **unlimited**, while the resources available to satisfy them are limited.
- **Limited Income:** A person has **limited income and resources** and cannot satisfy every want at the same time.
- **Priority:** Therefore, it is necessary to decide **which wants are more important** and should be satisfied first.
- **Proper Allocation:** Fixing priorities helps in the **best use of limited resources** and avoids waste.
